expand breath and depth
of the outreach activities**

VISION

The spin off initiative aims at creating awareness, building bridges, strengthening alliances and fostering dialogues among the participants. Engagement of citizens of the involved countries, encouraging willingness to act collectively, launch actions and promote the principles and priorities of UNAOC.

GEOGRAFIC SCOPE

European Southern and Southeast countries (pilot phase – Portugal, Spain, Macedonia and Greece) ;
Mediterranean and Middle East countries

CHALLENGES

REFUGES AND MIGRATION CRISIS

The ongoing refugee crisis became highly politicized and polarised. There is a need to empower dialogue among stakeholders and foster cooperation towards common, adequate and swift solutions to the crisis.

COUNTERING EXTREME VIOLENCE

Terrorism is a global problem. To win the fight against terrorism and manage to counter violent extremism, we desperately need to make better use of our ideas, developing projects that can raise awareness around these issues.

YOUTH TRAINING AND PROJECT ENABLEMENT

Youth is with no doubts, a driving force for positive social change. We should empower young people and make them part of the ongoing process of changing the world.

EDUCATION IN ACTION

A long pier made of wooden posts extending into the water at sunset. The posts are arranged in two parallel lines, creating a central aisle that leads towards the horizon. The water is calm, reflecting the warm colors of the sky. The sky is a mix of orange, yellow, and blue, suggesting the time is either dawn or dusk. In the distance, some buildings and structures are visible on the horizon.

ABOUT FAOC

motto:

"The tree of peace was once a seed of unity"

The Foundation's mission is countering harmful divisions, polarization and extremism in and among societies. Our work is aiming towards accomplishment of the three principal goals:

- to integrate a diverse group of actors in respectful dialog and joint action for peace and progress enhancement;
- to develop a variety of instruments and platforms for sustainable conflict management and reconciliation; and
- to contribute in the global mission of UNAOC and other institutions to bridge divides and promote harmony among the nations.

The work of the Foundation has a wide focus. As a regional and global meeting point for state leaders, religious leaders, politicians, civil society, academia and media is a "do-tank", not just a "think-tank".

The Foundation's primary geographic focus is on the Balkans by building on comparative research with the Middle East and the Caucasus. These three regions have been spots of competing geo-political interests of the large and regional powers throughout history.
